

RACE MEETING TIMING INFRASTRUCTURE POLICY

Policy number	ES 021	Version	V1
Drafted by	CEO	Approved by Board on	23 October 2017
Responsible person	CEO	Scheduled Reviewed	As Required
Status	Public		

INTRODUCTION

By resolution of the Board in June 2017 it was decided to cease support for timing of Race Meetings through the CMS and remove CMS timing from service as of 31 December 2017 and to substitute in its place the latest MYLAPS timing system that will be required to be used across all Clubs that are currently affiliated with Karting Australia (“KA”).

It was further resolved that KA would purchase the necessary hardware - MYLAPS X2 Decoders and Servers and software - MYLAPS Orbits 5 that was required for the timing System (“**New Timing System**”) with revenue from the Company’s general operating reserves (The Future Fund) and make available the free use of the New Timing System to currently affiliated Clubs that met the conditions for free use of the new system (based on criteria such as the number of race meetings conducted, active membership base and so on.)

Clubs were asked to enter into a simple ‘free use agreement’ with KA prior to 20 October 2017 (“**Free Use Agreement**”) that would cover the expected life of the hardware.

Some Clubs elected not to accept the KA offer of free use of the New Timing System and chose not to enter into the Free Use Agreement.

PURPOSE

This Policy serves to clarify the timing requirements for all Affiliated Clubs for the timing of all KA Permitted Race Meetings from 1 January 2018.

Further it serves to clarify the Race Meeting Timing requirements for:

1. Those Affiliated Clubs as at 1 July 2017 that elected not to enter into the Free Use Agreement; and
2. Those Clubs that may apply for and become affiliated with KA and a State Karting Association after 1 July 2017.

POLICY

As of 1 January 2018, all KA sanctioned and Permitted Race Meetings will be required to be timed using:

- A MYLAPS X2 Decoder and Server; and
- MYLAPS Orbits 5 software.

Clubs that elected not to enter into the Free Use Agreement will be required to ensure that from 1 January 2018, at their own cost, they have available to them and will use for all KA Permitted and sanctioned Race Meetings and activities a fully functioning MYLAPS X2 Decoder and Server and MYLAPS Orbits 5 software.

Clubs that apply for and become affiliated with KA and a State Karting Association after 1 July 2017 will be required to ensure that from the date of their affiliation, at their own cost, they have available to them and will use for all KA Permitted and sanctioned Race Meetings and activities a fully functioning MYLAPS X2 Decoder and Server and MYLAPS Orbits 5 software.
