

HOMOLOGATION AND TECHNICAL SPECIFICATION UPDATE BULLETIN

HOMOLOGATION	IAME KA100 Reedjet	HOMOLOGATION NO.	106H
BULLETIN NO.	106H – 7	BULLETIN DATE	13 December 2017
SUBJECT	Carburettor Kit		

The information and specifications contained in this Homologation and Technical Specification Update Bulletin are to be read in conjunction with and form part of the homologation detailed herein.

EXPLANATORY NOTES SUPPLIED BY THE MANUFACTURER’S REPRESENTATIVE.

To avoid confusion and make it easy for technical officers to identify that the correct carburettor kit is fitted; we will begin supplying kits with orange coloured gaskets and brown Teflon pump diaphragm. This is the same kit that is used in the Tillotson HW27A fitted to the X30 engine therefore customers will only need to stock one kit to service both engines.
