

Ten ways to reduce your risk of coronavirus

- WASH hands often with soap and running water, for at least 20 seconds. DRY with paper towel or hand dryer.
- **TRY** not to touch your eyes, nose or mouth.
- COVER your nose and mouth with a tissue when you cough or sneeze. If you don't have a tissue cough or sneeze into your upper sleeve or elbow.
- ISOLATE yourself at home if you feel sick. If you take medication ensure you have adequate supplies.
- PHONE your GP first if you need medical attention. They will tell you what to do.
- CONTINUE healthy habits: exercise, drink water, get plenty of sleep, and now is the time to quit smoking. Call the Quitline 137 848.
- DON'T wear a face mask if you are well.
- BUY an alcohol-based hand sanitiser with over 60 per cent alcohol.
- **GET** the flu shot (available April).
- SHAKING HANDS is optional!
