

IMPORTANT INFORMATION ABOUT COMPETING IN OVERSEAS KARTING EVENTS

If you are considering competing in an overseas karting event, there are several things that you need to know. There are two types of events that you may be able to compete in. They are either “**NATIONAL EVENTS**” that are included on the national karting calendar of another country (or ASN) or “**INTERNATIONAL EVENTS**” that are included on the CIK-FIA International Karting calendar.

The licensing rules for both are very different but they are all governed by the International Sporting Code of the FIA (ISC), the International Karting Licence Rules of CIK. Note – there are some karting events conducted in the world that do not run under the ISC and their requirements may be different to the information contained herein. In short, check with the Organisers.

NATIONAL EVENTS OF ANOTHER COUNTRY:

You may be able to compete in an event on the **National Karting Calendar of another country** by using your Karting Australia Driver’s Licence.

- You must check the Regulations for the event in which you want to race to ensure that the Organisers will accept entries from Licence holders from another country. You need approval of the foreign ASN to compete in a National event.
- If you are allowed to race in their event, you will need to obtain written Approval to compete Abroad on a Domestic Licence from Karting Australia before you place your entry for the event.
 - To do that, you will need to complete an **Application for Permission to Compete Abroad on a Domestic Licence** Form and return it to us along with payment of the appropriate fee.
 - You should allow a month for the Permission to Compete Abroad to be processed and returned to you.
- While competing overseas, you will not have any insurance coverage from Karting Australia.
 - You should check with the Organiser of the event/s in which you will be competing to confirm the level of insurance coverage (if any) they have in place that will cover you.
 - We strongly advise you to arrange your own insurance, being mindful of the level of coverage and its inclusions/exclusions such as transportation costs if you need to be transported back to Australia, level of coverage, imposed limits of coverage and all other considerations.

If you would like more information on National Competitions and what is expected of Drivers from another country who want to compete abroad please refer to Article 2.3 of the ISC.

CIK/FIA INTERNATIONAL EVENTS (Events included on the CIK/FIA International Calendar)

Article 3.2 of the CIK-FIA (International Karting Licences For Drivers) states:

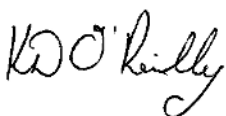

“To participate in any Competition entered on the International Sporting Calendar of the CIK-FIA, a Driver must hold a Karting Driver’s International Licence.”

In other words, if you are the holder of an Australian Passport (for international travel), you **MUST** have an International Licence issued by Karting Australia if you want to compete in a CIK-FIA Event.

International Licences are issued in accordance with the ISC by Karting Australia.

Please see the enclosed “**Guidelines to Apply For or Renew an International Licence**”. This will take you step by step through the process of applying for your first International Karting Licence or renewing your previous International Karting Licence.

Best Regards,

Kelvin O'Reilly
Chief Executive Officer
